

Beginner Calisthenics Plan (4 Weeks)

Build Strength, Endurance, and Mobility

Schedule

- **3-4 days per week** (e.g., Monday, Wednesday, Friday) - Progress each week by increasing reps or difficulty

Workout A: Upper Body Focus

3 Rounds – Rest 30-60 sec between exercises

1. **Incline Push-ups / Regular Push-ups** – 8-12 reps
2. **Negative Push-ups (Lower Slowly)** – 5 reps
3. **Knee / Regular Dips (on chair or parallel bars)** – 6-10 reps
4. **Superman Hold** – 30 sec
5. **Plank** – 30 sec

Workout B: Lower Body Core Focus

3 Rounds – Rest 30-60 sec between exercises

1. **Bodyweight Squats** – 12-15 reps
2. **Lunges (each leg)** – 8-12 reps
3. **Glute Bridges** – 10-15 reps
4. **Leg Raises / Knee Tucks** – 10 reps
5. **Side Plank (each side)** – 20 sec

Optional: Mobility Active Recovery (On Rest Days)

- Stretching (hips, shoulders, hamstrings) - Walking or light cardio

Progression Plan (Over 4 Weeks)

- **Week 1-2:** Start slow, focus on form - **Week 3:** Increase reps (by 2-3 per exercise) - **Week 4:** Try harder variations (e.g., incline → regular push-ups)

Tracking Progress

- Note reps completed each workout - Aim to improve reps or move to harder variations
